

# Systematic ESG World Equity

## Strategy summary

The strategy brings together companies that contribute to the three themes of sustainability and aligned with the SDGs, according to a methodology developed by DGAM's RI team. These companies must also meet minimum standards of governance and ESG risk management.

Securities linked to tobacco, weapons, fossil fuels, alcohol, gambling, adult entertainment and companies with practices deemed harmful are excluded.

The strategy is based on a systematic approach with a multi-factor model and rigorous active risk control.
